North Carolina Railroad Company.

The annual meeting of the Stockholders in the above Company was held at Salisbury on Thursday last, the 14th instant. From the Report submitted to the Stockholders by the Directors, as well as from the Report of the President to the Directors, we learn that the posi-

The Expense Account for the eleven months has been as follows:

Business appears to be healthy enough. stock; \$27,000, being interest on \$350,000 8 per cent. bonds; \$25,000 to Sinking Fund for the extinction of the 8 per cent. bonded debt. The payments for the year amounted to \$112,000, and the Directors have further declared a dividend of 2 per cent. to the Stockholders, payable on and after August 1st, 1859. The floating debt of the Company has also been reduced during the year. Fifty thousand dollars are already deposite to meet the \$350,000 bonded debt of the Company and that can be readily controlled. The prospects of a continued increase of the business of the road are looked upon as good, especially in view of the opening up of the Western North Carolina Railroad, which will soon reach Morganton and must prove a most important feeder to the business and aid to the prosperity of the N. C. R. R.

The President thinks that from this time forth, unless some calamity befalls, the Road can divide some amount of profits among the stockholders.

The report speaks of the necessity and great value of a Telegraph Line, and urges the construction of one upon the consideration of the stockholders.

It will be seen how vastly the receipts from way passengers and freights exceed those from through passengers. We like this, because the local business is the most reliable, and because it ought to be an argument against sacrificing too much to a minor interest which can only, if unduly pushed, lead to neglect of more important ones, thus injuring the Road itself, and measurably affecting injuriously other great works in the State

We learn that Mr. Fisher and the other individual Directors were chosen without opposition, or nearly so, save in the case of Judge Saunders, against whom Giles Mebane, Esq., was voted for. After sundry unsuccessful ballotings, W. T. Dortch, Esq., withdrew the name of Judge Saunders, and Mr. Mebane was elected.

We understand that the action of the stockholders was such as most fully and cordially to sustain Mr. Fisher, who received a much larger vote than on any former occasion, and against whom, indeed there could hardly be said to be any opposition.

We are endebted to the courtesy of Dr. J. D. Bella my for a copy of the reports from which we have gleaned the above statements about the Road. We have no more minute particulars about the doings in the meeting than those we have given. We are assured that the feeling is one of more satisfaction than has following any previous meeting of the Company. We trust that the time is not far distant when the debts of the State incurred for works of Internal Improvement will press less onerously upon her treasury, and the duty of imposing higher taxes be not so imperatively required of each new Legislature.

The new directory stands precisely as the old one did. with one exception-John I. Shaver is on the State directory instead of Giles Mebane, and Giles Mebane is on the individual Directory instead of R. M. Saunders.

The Fayetteville Carolinian still insists upon the " ignorance" of the Journal, this time in the case of Mr. McDuffie, who has announced himself as a Democratic candidate for Congress. Now, we are no partizans of Mr. McDuffie. We simply desire to do evenhanded justice. We are not Mr. McDuffie's political biographers; we merely state what appear to be the facts as they stand. We do not, and did not, refer to Mr. McDuffie's political history—we simply stated his present position. We find Mr. McDuffie appointed as a Democratic delegate to represent Cumberland county in the Charlotte Convention of last year. We have heard of nothing since that, to put him out of the pale within which he was then recognised as standing. We learn that he now avows his adherence to the strictest rules of Democratic doctrine. We are not of those who usurp the power to go behind things of this kind. We confess that we are ignorant of many of the turnings and twistings of local and county politics, and therefore sel- tion in Congress. dom allude to them. As yet there are not a great many North Carolinians here, which of course is conceded to Mr. Winslow. We have not heard either of these gentlemen this canvass, altho' we have heard Mr. Winslow frequently before-Mr. Mc-Duffie we have never heard. The only notice I deem it proper for me to take of "A Card to the Public" by Walter Gwynn, which appeared in the Register of the 8th ult., is the publication of the annexed correspondence, which has been delayed by my absence from home, and the time occupied in getting the answers.

I had stated, in answer to a question from Gen. Mc Rae, that I notified Col. Gwynn of the meeting of the committee of directors appointed by the Board to settle the accounts of John C.
